CSE 110 Group 12 Wednesday B240

Tentative Work Schedule:

tldr:

Weeks 3-6: Implement core features of the app while learning android studio and app design

Weeks 6-9: Implement nonessential luxury features while polishing the app as a whole

Week 4:

- Create account system
 - backend/database/figuring stuff out: 5 days, 2 people
- Create account creation and main menu screens
 - frontend: 4 days, 2 people
 - backend: 4 days, 2 people

Clients will be shown a login-screen and a menu after creating an account

Week 5:

- Create ability to create a group
 - frontend: 3 days, 2 people
 - backend: 3 days, 2 people
- Create ability to invite users
 - frontend: 3 days, 2 people
 - backend: 4 days, 2 people
- Implement the functionality of accomplishing the actual gift exchange
 - frontend: 3 days, 2 people
 - backend: 2 days, 2 people

Clients will be able to create a group, invite users, and set up a gift exchange

Week 6:

- Create the deadline/countdown system
 - frontend: 3 days, 2 people
 - backend: 2 days, 2 people
- Implement Admin and User deadline options for customizing the gift exchange
 - frontend: 3 days, 2 people
 - backend: 5 days, 2 people

Clients will be shown more options when creating a group as an admin, and while looking at a group as a normal group member

Week 7:

- Create ways to customize a user's profile

 - frontend: 3 days, 2 people

 - backend: 3 days, 2 people

- add other neat features maybe

 - ???

Clients will be pleased

OR

- fix unforeseen mistakes

 - ???

Week 8:

- Continue writing the neat features and polishing the app

 - ???

Week 9:

- Finalize the app and prepare it for release
